Accurately Orient and Place
Protein Products in
Ready-To-Eat Assembly

FOOD PRODUCT PLACEMENT SYSTEM

Hoosier Feeder Company specializes in high quality and efficient equipment that orients parts for packaging and assembly lines.

Our unique, high-speed, hygienic product placement assembly automation solution is specifically designed for handling products in frozen food production and ready-to-eat assembly applications.

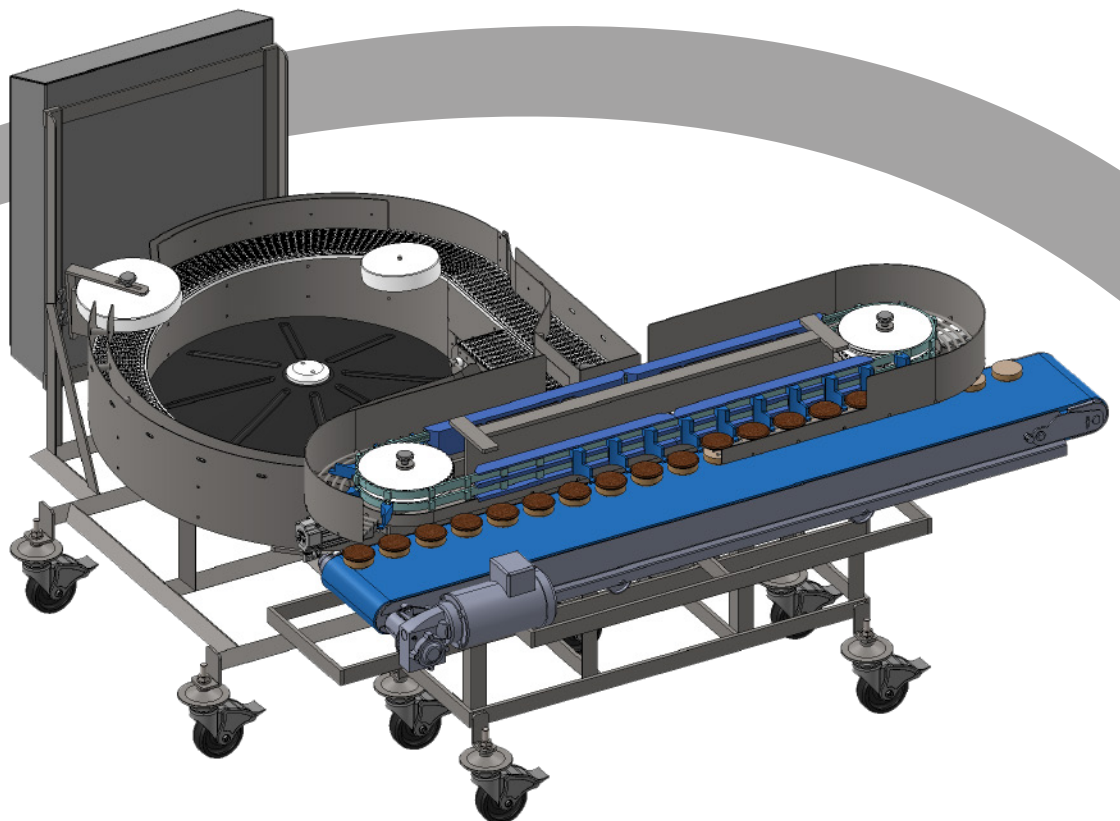

- ▶ Patent-pending, protein placement system
- ▶ Increases production speeds in a compact footprint
- ▶ High-speed, assembly rates up to 120 pieces per minute
- ▶ Hygienic design with reduced human contact
- ▶ Simplifies pick process for robotic pick-and-place integration
 - Presents single, oriented product to robot
 - Allows for multiple selections at the same time
- ▶ Sanitary, secondary packaging assembly, and general manufacturing applications

Applications Include:

- Ready-To-Eat Sandwiches
- Pre-Made Breakfast Sandwiches
- Frozen Meals
- Other Assembled Foods

Ideal for:

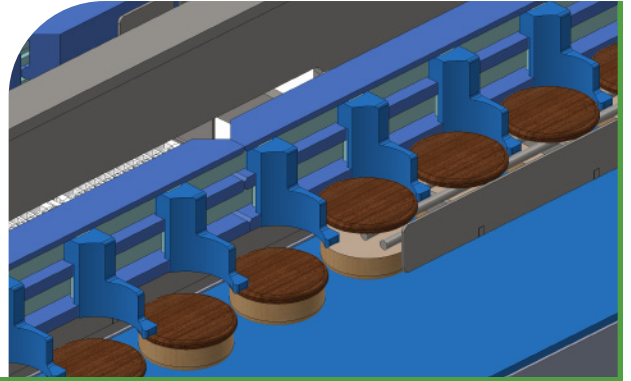

- Frozen Hamburger Patties
- Frozen Sausage Patties
- Frozen Egg Patties

ACCURATELY ORIENT AND PLACE PROTEIN PRODUCTS IN READY-TO-EAT ASSEMBLY

► How it Works:

Singulates and orients bulk proteins such as frozen hamburger patties, sausage patties, or egg patties and drops them into a tray or places them on top of another product such as a bun, biscuits, or muffin.

► Ultimate Orienting Conveyor

The placement system utilizes an Ultimate Orienting Conveyor to singulate and orientate the bulk proteins.

Constructed of 304 Stainless Steel, the patent-pending Ultimate Orientating Conveyor is designed for high-pressure wash-down environments and can be easily cleaned without removing tooling.

Complete Food Assembly Solutions Available

We offer a variety of solutions for handling food products and can provide a complete solution including:

- Orienting Conveyor Systems
- Bread Feeders
- Product Placement Systems
- Conveyor Systems

Service & Support

We want the life of your feeding system, from the moment it leaves our facility, to be efficient and effective in your process so we do whatever we can to assist in integration, implementation and maintenance.

Our Aftermarket & Service Offering Includes:

- ▶ Warranty
- ▶ Installations
- ▶ Replacement Parts
- ▶ Service & Repairs
- ▶ Technical Documents & Resources

Online educational resource for process equipment including technical information and videos about how equipment works together, troubleshooting, and more!
