

NEW CLIP PLACEMENT SYSTEM

High-Speed Automotive
Plastic Clip Assembly System

CLIP PLACEMENT SYSTEM

Hoosier Feeder Company specializes in high quality and efficient equipment that orients parts for packaging and assembly lines.

Our Clip Placement System is designed to feed clips at high rates of speed in automotive assembly applications.

- ▶ Patent-pending clip feeding system
- ▶ Feeds clips at a rate 3x faster than conventional methods, increasing throughput
- ▶ Simple integration with assembly stations or other equipment
- ▶ Compact footprint for maximized floor space
- ▶ Fast delivery, and quick and straight-forward installation
- ▶ 1-year limited warranty
- ▶ Installation and service also available

Applications Include:

- Automotive Assembly

Ideal for:

- Automotive Interior Panels
- Automotive Interior Plastics

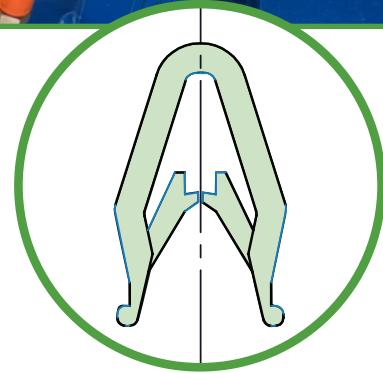

- ▶ Vibratory Feeder, Blow Feed Mechanism, and End-of Arm Tooling available
- ▶ Complete System Integration available through integration partner
- ▶ Complete System Footprint
 - 36" x 36"
 - 36" x 45" with controller
- ▶ Integrates with both 6-axis and SCARA robots. Robot and controls sold separately

HIGH SPEED AUTOMOTIVE CLIP ASSEMBLY SYSTEM

Vibratory Feeder

The Clip Placement System features a vibratory feeder to receive and orient the bulk clips.

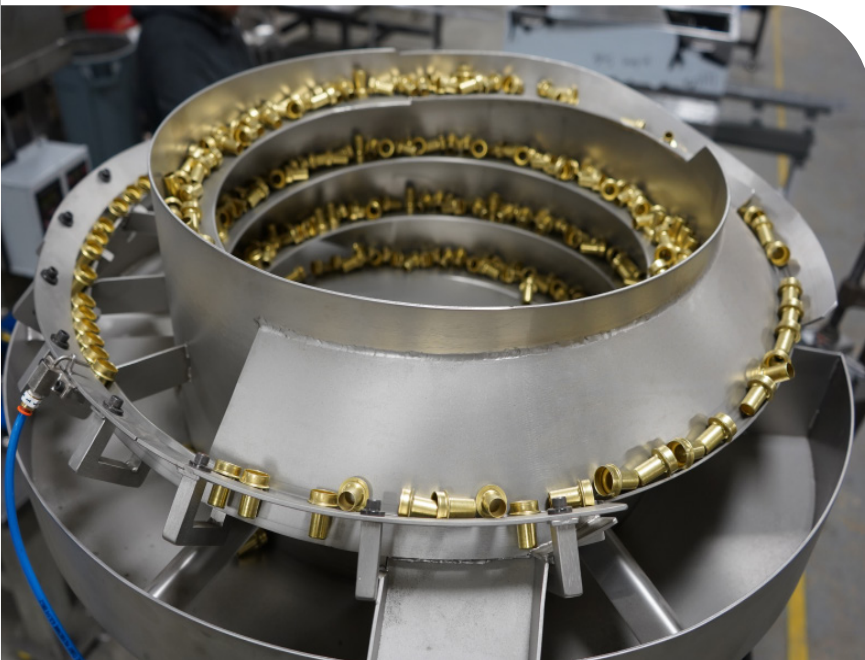

- Designed to accommodate standard size clips
- Comes standard with .5 cube stainless steel hopper
- Size and rates dependent on product and specifications

Complete Offering
