

MAINTENANCE MACHINIST

Lafayette Venetian Blind, a locally owned manufacturer of custom window treatments, is seeking an experienced Maintenance Machinist. This position will assist in all aspects of the industry including but not limited to: CNC machining, electrical, mechanical, Strong HVAC understanding, general construction, Welding/ fabrication, and production improvement. We are looking for a qualified individual with the experience to meet the needs of our 300,000 square foot manufacturing facility. Specifically, we are looking for an individual with an understanding or proficiency in the following areas:

Special Skills:

1. Machining skills; in house Machinery available for use are Horizontal Lathe, Vertical Mill, and a 3 Axis Hurco CNC.
2. Ability to review, discuss, and implement CAD drawings for Machined parts with Plant Engineer.
3. Ability to operate Machinery will receive immediate consideration. LVB prides itself on the ability to stay in house with Machining and tooling as needed.
4. CNC machine training is available for those candidates not familiar with Hurco VMone operating system and protocols.

General:

1. Ability to read blueprints and schematics.
2. General knowledge and ability to facilitate appropriate construction practices.
3. Self-motivated, organized, possessing good mathematical skills.
4. Quick learner in a diverse field which requires creative solutions to complicated issues.
5. Strong problem solving skills.
6. Strong knowledge and understanding of multi-discipline tool needs as well as an ability to use them.
7. Fostering team oriented skill sets, sharing knowledge to develop a single minded approach to repair and maintenance.

Construction:

1. General knowledge working with drywall, painting, carpet installation, and existing construction repair.
2. Exterior Maintenance of building including roof leak repair and HVAC maintenance.

Computer Skills:

1. Understanding of basic Microsoft Office skills for entering Maintenance Data.
2. PLC Programming is a plus.

Physical requirements:

1. Ability to stand on feet a large portion of the day, significant walking and lifting required up to 70#.
2. Ability to climb ladders and work in areas above the ground.
3. Capable of working in in-climate weather.

In general, we are looking for a well-rounded individual who is confident, possessing exceptional critical thinking skills, high level of ability and motivation. Willing to take on a challenge and succeed. We are a hands on company that relies on its internal employ to progress from concept to completion with as little outsourcing as possible.

We offer a comprehensive package of pay and benefits. Please send resume, or make application at:
