**What does a "float" schedule mean?**

It can often be hard to some families to schedule and keep weekly reoccurring appointments. We realize that families have a lot going on. "Float scheduling" provides families the flexibility they may need. It allows the family to tell Children's TherAplay (CTF) what time works for them each week. This may change as often as the family needs it to and is scheduled by the parent one week prior to the next appointment. These appointments can be made by phone or at the check-out desk following each appointment.
