ORGANIZATION OVERVIEW

Located in Carmel, IN, Children's TherAplay provides physical, occupational and speech therapies using equine movement as a treatment tool for children with disabilities and/or unique needs. For over 22 years, TherAplay has been treating kids 18 months to 13 years with a variety of diagnosis and developmental delays and we have grown to become the largest facility specializing in hippotherapy in the country.

The horse can provide a therapeutic input that cannot be replicated in any other type of therapy. These inputs have allowed our clients to see transformational outcomes, such as children with mobility limitations taking first steps, non-verbal children saying their first words, children learning to feed themselves independently, and dress and care for themselves more independently. The list goes on.

TherAplay is an Equal Opportunity Employer. We are committed to the inclusion of and full participation by all people in the achievement of our mission.

Would you like to learn more about how you can use your skills to impact an extraordinary mission? We would love to hear from you! Please submit a cover letter, resume and three references to the Director of Therapy Services, Carah Sullenbarger at csullenbarger@childrenstheraplay.org.
