

Many people do not know where all of their money goes. If you are having trouble saving money and/or if you want to create a realistic budget/spending plan, you need to know where ALL of your money is going now. Use this template to track your expenses for a full month. Carry it with you and enter exact amounts for all expenses as they occur. If you spend \$23.77 for gas, \$7.43 at Burger King or have a \$29.99 gym membership deducted from your account, write it down when it occurs. Be thorough and accurate for one full month.
