

Ritron Model(s):	DMR Repeater RLR-465DMR
Current Firmware Revision:	9S1N4455
Revision Update:	07/09/2025

RLR-465DMR firmware revision history:

9S1N4455 **released: 07/09/2025**

Improvements:

1) Fixed a bug that caused an echo audio event on rare repeater PTT events.

9S1N4454 **released: 09/12/2024**

Improvements:

1) Resolved an issue where the repeater could randomly lock up.

9S1N4453 **released: 06/26/2024**

Improvements:

1) Fixed a bug that the repeater is responding to all Color Codes, it is supposed to only response to the user defined Color Code.

2) Adding function for manufacturing that allows to program the CML functional image into the SPI flash.

3) Added code to improve performance with weak signals that lose voice packets.

9S1N4452 **released: 08/28/23**

Initial release.
