

## 2-Way Radio Communication for Farm, Ranch or Home.

### Portable 2-Way Radios

Communicate instantly across your property – from your home office, front gate, barn, or in the field.

Talk one-to-one or one-to-many — instantly at the push-of-a-button. You can even make PA announcements over the wireless PA system right from your 2-way radio from anywhere\* on the property.

Save time, convey information, get answers and make decisions more quickly and efficiently — all at the push-of-a-button. Compatible and programmable products make system set-up easy and fast.

Ritron License-free, VHF MURS business band 2-way radios provide excellent performance and durability. A variety of innovative, compatible products solve problems and provide time-saving, wireless voice communication at distances of up to 2 miles, line-of-sight. UHF and VHF license-required models also available.

### Desktop 2-Way Intercom

AC powered. Always On, Always Ready, Always There!

### 2-Way Radio Callboxes

Put communication right where it's needed. Battery powered.

### Wireless PA Systems

Make PA announcements using your 2-way radio.
